

# Shell Tellus Hydraulic Oils:

**Unmatched Performance  
Beyond Comparison**

Choosing the right hydraulic oil is crucial for the efficiency, reliability, and longevity of your hydraulic systems. Shell Tellus hydraulic oils stand out as the superior choice, offering unmatched performance across various operational needs—from fundamental protection in less demanding applications to advanced solutions for severe conditions and environmental considerations. Below, we outline why Shell Tellus is the best option for your hydraulic systems, including comparisons to alternative products from Mobil, Chevron, and Gulf Lubricants.

Product	Benefits & Application	Technology	Technology ISO Viscosity Grades	Product Alternatives	Why Choose Shell?
Shell Tellus S4 ME	Extra long life Energy saving Oxidation and thermal stability	Synthetic, ashless	HM/32, 46, 68	Mobil SHC 525 / Mobil SHC 524 Chevron Clarity Synthetic EA 46 Gulf Harmony Synthetic 46	Shell Tellus S4 ME excels over alternatives by offering longer life and enhanced energy efficiency, making it the optimal choice for systems requiring both durability and environmental benefits.
Shell Tellus S4 VX	Ultra-low temperature Versatile application Shear stability	Synthetic, ashless	HM/32	Mobil SHC 524 / Mobil DTE 10 Excel Series Chevron Clarity Synthetic EA 32 / EA 46 Gulf Harmony Synthetic 32 / 46	Shell Tellus S4 VX provides superior low-temperature performance and versatility, outperforming Mobil SHC 524 and Chevron Clarity Synthetic EA, making it the best choice for applications demanding consistent reliability in harsh conditions.
Shell Tellus S3 V	Long life and improved efficiency Versatile application	Group II mineral, ashless	HV/32, 46, 68	Mobil EAL 224H / Mobil EAL 224 Chevron Clarity Hydraulic Oil AW Gulf Harmony Bio	Shell Tellus S3 V surpasses alternative choices by offering exceptional efficiency and longevity, ensuring optimal performance across a variety of applications.
Shell Tellus S3 M	Long life and improved protection Industrial applications	Group II mineral, zinc free	HM/22, 32, 46, 68, 100	Mobil EAL 224H / Mobil EAL 224 Chevron Clarity Hydraulic Oil AW Gulf Harmony Bio	Shell Tellus S3 M provides unmatched protection and lifespan compared to Mobil DTE 20 Ultra Series and Chevron Rando HDZ Series, making it the premier choice for demanding industrial environments.
Shell Tellus S2 VX	Extra protection Versatile application Long life	Group II mineral, zinc-based	HV/15, 22, 32, 46, 68, 100	Mobil DTE 20 Ultra Series / Mobil DTE 20 Series Chevron Rando HDZ Series Gulf Harmony HVI Series	Shell Tellus S2 VX outperforms listed alternatives by providing robust protection and versatility, ensuring your hydraulic systems run smoothly across various environments.
Shell Tellus S2 MX	Extra protection Industrial applications Long life	Group II mineral, zinc-based	HM/32, 46, 68, 100	Mobil DTE 20 Ultra Series / Mobil DTE 20 Series Chevron Rando HDZ Series Gulf Harmony HVI Series	Shell Tellus S2 MX offers superior protection and durability compared to product alternatives, making it the best choice for industrial settings needing reliable and long-lasting hydraulic oil.

Each Shell Tellus product is meticulously engineered to surpass the functional and performance characteristics of comparable products, delivering unmatched efficiency, longevity, and protection for your hydraulic systems.
